

SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XVII.

STANFORD, KY. TUESDAY, MAY 7, 1889.

NO. 25

LONDON, LAUREL COUNTY.

—Several cases of typhoid fever in and about London.

—M. M. Barnett, of Laurel, has been appointed a deputy U. S. marshal.

—Considerable frosts here last Friday night, but most of the farmers are of the opinion the fruit is not yet injured seriously.

—A grey eagle, measuring six feet ten inches from tip to tip, was killed by John Blankenship about three miles south of here Thursday.

—Mrs. Wiedner, wife of Fred Wiedner, one of the proprietors of the London Planing Mill, died about 2 o'clock Saturday of consumption.

—The agony is at last over and J. I. Weaver is postmaster. The postoffice at this place pays something like \$1,000 a year, not to be grunted at, you see.

—The G. A. R. headquarters for the department of Kentucky has been established at this place with V. Boring Commander and A. Chiesman Adjutant General.

—Rev. J. M. Crow, of Louisville, lectured in the M. E. Church here Saturday night, subject, "The Tell-Tale Tick of Time." The lecture was good, but the crowd was slim.

—J. T. Williams is one of the most enterprising men we have. The ground had not got cold where his store-room and ware-houses burned until he had commenced the erection of another building on the same site.

—Little Bill Scoville, who was so badly hurt by being run over by a heavily loaded wagon the first of last week, is rapidly recovering. The wheel passed diagonally across his breast and at the time the doctors thought his chance for recovery exceedingly doubtful. Bill is a favorite of the town.

—J. W. Alcorn, of Stanford, was here last week. Ed Parker was called home from the East last week on account of the serious illness of his little daughter, who has typhoid fever. Miss Mattie Sawyer, daughter of Rev. J. A. Sawyer, who has same disease and has been very low for some time, is slowly improving.

The Green River R. R.

A gentleman who has just returned from Casey county said this morning: "I took a trip on the Cincinnati & Green River road, which runs from Kings Mountain, on the Cincinnati Southern, to Yosemite, in Casey county. It is without exception, the most remarkable road in America. The entire rolling stock consists of a second-hand engine of the oldest pattern, and five battered freight cars. They originally had a passenger coach, but it was wrecked and since then they have not been able to purchase another. There were four men in the party besides myself and one young lady. The latter was given a seat in the cab of the engine beside the engineer, and the rest of us were compelled to sit on the cow catcher. The train moved very slowly and the road was horribly rough, the rails being so small that they bent in every direction under the weight. We were provided with a good supply of rocks and made ourselves useful by throwing at the cows and hogs which crossed the track, keeping them out of the way of the train. Near Yosemite the road stops abruptly at the edge of a cliff, and the train has to back down the hill on a side switch. In order to prevent the train from running over the cliff the contractors with rare discretion built the road up against an enormous sugar tree, which served as a bulwark."

"The train carries the mail between King's Mountain and Yosemite, and the mail bags are thrown into the tender of the engine. Often the letters are thrown in loose and I saw the fireman shovel several of them into the furnace with the coal."—Louisville Times.

MAKING CAMPHOR IN JAPAN.—Camphor is made in Japan in this way: After a tree is felled it is cut up into chips, which are laid in a tub or large pot partially filled with water and placed over a slow fire. Through holes in the bottom of the tub steam slowly rises, and heating the chips generates oil and camphor. Of course the tub with the chips has a closely fitting cover. From this cover a bamboo pipe leads to a succession of other tubs with bamboo connections, and the last of these tubs is divided into two compartments, one above the other, the dividing floor being perforated with small holes to allow the water and the oil to pass to the lower compartment. The upper compartment is supplied with a straw layer, which catches and holds the camphor in crystal in deposit as it passes to the cooling process. The camphor is then separated from the straw and packed in tubs. The oil is used by the natives for illuminating and medicinal purposes.—American Agriculturist.

The Pride of Woman.

A clear, pearly and transparent skin is always a sign of pure blood, and all persons troubled with dark, greasy, yellow or blotched skin can rest assured that their blood is out of order. A few doses of Biggs' Blood Purifier & Blood Maker will remove the cause and the skin will become clear and transparent. Try it, and if satisfaction is not given it will cost you nothing. It is fully warranted. A. R. Penny, Druggist.

DANVILLE, BOYLE COUNTY.

—To-night, Tuesday, will be the regular monthly meeting of the Commercial Club.

—Gilcher Brothers are building an office next to Mr. Fox's art gallery and as soon as it is completed they will move the telegraph wires from their hotel into it.

—It looks as though business was on the increase in Danville. There is scarcely a business house vacant now, when several months ago at least a half dozen were vacant.

—One of the fair damsels informed me that she would like to see the ladies who did not take place till the 31 Sunday. Don't blame them; it would look like pressing the season now to come out in their summer "rigid."

—We make the assertion that there are fewer men in Boyle county who are seeking office under the present administration than any county in the State. Two or three are after the postoffice and S. S. Fry wants to be pension agent, are about all the applicants we know of.

—Hearing the remarks of some persons about the music at some of the churches causes me to remark how important it is to have a good choir in the church. I believe almost as many people go to hear the music as go to hear the preaching. Just so sure as the singing is poor at church, everybody will remark about it. The music at all the churches in Danville is good, but could be made much better.

—James M. Walton was married on Thursday evening to Miss Laura Bonta, of this place. Rev. J. L. McKee officiating. Mr. Walton graduated at Centre College last year and has been attending the Seminary most of the time since. We congratulate Mr. W. in winning the heart and hand of so pretty and lovable a girl as Miss Bonta. They left Saturday for his home in Barboursville, where he will take charge of the Presbyterian church.

—Miss Johns, of Pleasantville, is with her brother, Dr. J. B. Johns, for a few days. Rev. J. Lapley McKee has returned to Barboursville. Dr. L. S. McMurry has returned from Europe, where he has been for about three months. Dr. A. S. Price is with his brother-in-law, Dr. Sam P. Grant, assisting him in his dental business. Judge M. J. Durham and wife have taken rooms at the Perkins House. Mr. Mark Wakefield, who has been sick for some time, is no better.

THE BEST TIME TO BATHE.—The best time to bathe, according to the London Lancet, is just before going to bed, as any danger of catching cold is thus avoided, and the complexion is improved by keeping warm for several hours after leaving the bath. A couple of pounds of bran put into a thin bag and then put into the bath tub is excellent for softening the skin. It should be left to soak in a small quantity of water several hours before being used. The internal aids to a clear complexion are most of them well known. The old fashioned remedy of sulphur and molasses is considered among the best. Charcoal powdered and taken with water is said to be excellent, but it is most difficult to take. A strictly vegetable and fruit diet is followed by many for one or two weeks.

It is said that a Portland shoe manufacturer being asked to assist in providing bread for the suffering poor, said he could contribute to the extent of 100 sacks of flour and 100 bushels of meal to each man who might be found in Portland, who neither kept a dog, drank rum or used tobacco, who was in need of bread—and that person has not yet appeared to claim the gift. The Brunswick Telegraph tells this tough story and we even see the twinkle that twinkled in the editor's eye as he prepared the copy.—Lewiston Journal.

Every one who wants bug juice in Kansas can get it. Three thousand sacks are in full blast vending "red eye" without paying the State a cent of tax. Under the high license system of say \$1,000 fee, half of them would be suppressed and the other half would contribute \$150,000 a year in reparation of the mischief they do. But the sentimentalists say they must not be taxed.—Chicago Tribune.

BATEN IN TEXAS.—Michigan, Tennessee, New Hampshire, Massachusetts, only existing by force of habit or contempt in States where it is not enforced, prohibition seems to have, as was said of Alfred Russel, a glorious future behind it.—New York Sun.

—Injury to the railroad bridge at Frankfort detained Gov. Francis, of Missouri, and his 400 troops at Lexington and they were given the freedom of the city and the race course. Among the other notable visitors were First Assistant Postmaster General Clarkson, W. W. Dudley, of "Blocks-of-Five" fame, and ex-Gov. Alger, of Michigan.

Why Is It

That people linger along always complaining about that continual tired feeling? One bottle of Biggs' Blood Purifier and Blood Maker will entirely remove this feeling, give them a good appetite and regulate digestion. A. R. Penny, Druggist.

HUSTONVILLE.

—Sheep shearing has not progressed very far and hence the wool market is scarcely quotable.

—Our village is essentially dull—the "nations wards" being too lazy even to play base ball, or get up a riot at church.

—Rev. Mr. Bruce preached the first sermon of his engagement at the Presbyterian church on Sunday to a large and interested audience.

—The frost of Friday night brought mourning, lamentation and war to the early gardeners of this vicinity, having caught most of them napping.

—Our sick folks report no improvement. John Cooper seems to be slowly wasting away. Mrs. Vanarsdale seems to be hopeful under a change of treatment. S. Cowan was very low at last accounts.

—I hope to be able soon to report a revival in the matrimonial market. In fact the reason assigned for the weather being so strangely out of joint is that our oldest and most reliable meteorologist is busy cherishing a tender breed of hope which he trusts soon to see blossom into a garland with which to deck his patriarchal brow.

—Mr. Joe Jones, wife and brother, of Stanford, spent Sunday with Mr. and Mrs. Swain. Messrs. Menefee and Newland visited Mr. Sam Cowan same day. Charlie Bishop is still an invalid. Miss Fannie Harper, going home from church Sunday, in making a short turn had a wheel to come off her vehicle and was thrown out and pretty badly bruised.

No Pleuro-Pneumonia or Other Disease.

To the Editor of the Interior Journal.
At HOME, May 6.—I see in the issue of your paper of the 3d a notice that my cattle are dying and others are sick. Now, if there is a sentence in the article that is true or resembling truth, I am unable to see it. I never notified the State Board of Health that I was losing cattle by a singular disease at all, nor did I order its local member, Dr. Steele Bailey, to examine the affected stock and report, and I have not lost 13 valuable Shorthorns, nor are there others sick, and no one has ever heard of from me or my family. The facts are these: Two weeks yesterday I had a poor, dry cow that had been thin in flesh and seemed on the decline for 15 months, to die suddenly. I did not think that poverty alone killed her (she swelled up immediately) and a week ago this evening my milk cows were driven up and milked, all seeming in good health. The next morning one of them dropped dead and was swollen to a perfect strut as large as two cows, and suspecting she was poisoned—never having seen one swell so—told Mr. Gentry, who was going up to town on business, to stop and see Dr. Bailey and ask him if he was paid by the State to examine stock, and if he said he was not to tell him I would give him \$250 to come down and examine the cow. He came and examined her, but could not tell whether it was poison or not. I write this much as facts, in self-defense, and to remove the scare and excitement of the county. I do not believe Dr. Bailey ever made the statement as put in the paper, but some one anxious to keep up with the news has heard something about his being out, and used this language to express it and got ahead of the news. I learn it has also appeared in the Danville Advocate, and of course will spread the alarm, is my apology for writing so much. Yours, &c., A. M. FELDAN.

DANVILLE.—James Madison Walton, a theological student at the Danville Seminary, was married yesterday to Miss Laura Bonta, of this city. Mr. Walton graduated with the highest honors at Centre College, having taken all the prizes. Miss Bonta graduated with distinction from Caldwell College. E. D. Pendleton, of Bristol, Tenn., has bought in this and adjoining counties 17 nice mares and geldings for about \$200 per head. Lytle Hudson bought of Carrithers & Beards, Lexington, a nice pair of 16-hand mares for about \$350. He sold two geldings to E. D. Pendleton for \$250. Monte Fox has bought during the past week, in this and Lincoln counties, about 200 hogs at from \$4 to \$4.30.—Advocate.

—Miss Myers, a St. Louis belle, has been sick and her admirers of the sterner sex sent her in one day 5,000 roses and 48 pounds of candy.

It Don't Pay.

To experiment with uncertain remedies when afflicted with any of the ailments for which Dr. Pierce's Golden Medical Discovery is recommended, as it is so positively certain in its curative effects as to warrant its manufacturers in guaranteeing it to benefit or cure, or money paid for it is returned. It is warranted to cure all blood, skin and scalp diseases, salt-rheum, tetter and all scurfous sores and swellings, as well as consumption, (which is scrofula of the lungs, if taken in time and given a fair trial.)

Don't back, back, blow, spit and disgust every body with your offensive breath, but use Dr. Sage's Catarrh Remedy and end it.

You Cannot Afford

At this season of the year to be without a good reliable diarrhoea balsam in the house, as cramps, colic, diarrhoea and all inflammation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of Biggs' Diarrhoea Balsam will do more good in cases of the kind than any other medicine on earth. We guarantee it. A. R. Penny, Druggist.

LANCASTER, GARRARD COUNTY.

—A number of hogs are being shipped from this point to Cincinnati. Good ones are bringing 4½ cents per lb.

—The rural readers of the Courier-Journal and the Times are longing for the time when Proctor Knott and Cometo-taw will fall into innocuous desuetude or some other hole.

—Capt. Isaac Singleton, an aged citizen, died of softening of the brain at his residence in this city on Saturday morning at 2 o'clock. His remains were interred in Lancaster cemetery on Sunday afternoon.

—We have information of the drowning of Capt. Grant Reid, in San Carlos Bay on the 26th ult. Capt. Reid was the commander of the sloop, chartered for a season by the Barnes "Troupe" and friends when they started on their cruise from Punta Gorda.

—Geo. Smith, of Birmingham, Ala., is visiting his friends and relatives here. Prof. T. F. Leary, of Covington, is here teaching several of our young men the art of book-keeping. Our town will shortly lose another good citizen. Prof. Cline has engaged to teach in Hamilton College, Lexington, and will move there in a short time. H. C. Kauffman and family are visiting relatives in Hustonville.

—The centennial is past; the poets have sung their songs of freedom; the bird of liberty spread herself unusually wide, but the shadow of her wings fell upon but few acres of land that we did rob the red man of. Whenever we want a little more territory we sing a song of freedom, drive the weaker people from their possessions, put up a liberty pole offer a prayer and set about to rob each other.

MATRIMONIAL MATTERS.

—Aurelius Payne, a well-to-do farmer, of Fort Wayne, Ind., aged 62, was married last week to Miss Alice Culewan, aged 27. This is the old codger's 8th wife, six having died on his hands, and the 7th being divorced.

—Mrs. Jane B. England, of Christian county, who obtained a divorce from her husband last November, met him the other day and being unable to withstand his plea for another trial, she willingly surrendered and they were re-married at once.

—The Barboursville News tells that John Shuster obtained license April 23d to marry Miss Nancy Jane Luster, but when he went to make her his wife she raised a row because he had been talking soft talk to Miss Rhoda Cook and wouldn't perform her part of the business. Accordingly Shuster returned the license on the 26th with "no property found" inscribed thereon and got another "pair" for himself and Rhoda, the young lady who had received the attentions complained of by Miss Nancy Jane, and they were married.

—There are 838 pensioners on the rolls who draw \$72 each per month for total blindness.

—At Blair, La., a man named Melwick shot his wife and two children, set fire to his residence and burned the bodies of his victims with it and then shot himself.

—Warsaw, N. C., suffered a terrific cyclone Friday leveling many of the houses and injuring numerous citizens. Hail fell to the depth of 8 inches in 36 seconds, says a dispatch from there.

—At Greenville, Miss., Weston, a negro, shot and killed Hugh Cunningham, a night watchman. Later in the day, Lem Collier, colored, expressed sympathy for Weston in a saloon, when John Kelly, the bar tender, shot him to death.

—At Earlington Miss Morton shot and fatally wounded Miss Lizzie Hays, his sweetheart, because she insisted on dancing with Morton's rival at a ball. Morton afterward killed himself, as he should have done before he fired the first shot.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by A. R. Penny, Stanford, Ky.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold, attended with a distressing cough and running blood in his nose. He tried many so called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it.—Trial bottle free at A. R. Penny's Drug Store.

Electric Bitters.

This remedy is becoming so well known, and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A power medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all Diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial Fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price 50c and \$1 per bottle at A. R. Penny's drug store.

ROYAL BAKING POWDER
Absolutely Pure

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds and can not be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall Street, New York.

Stgt. Mt. Vernon, Ky.

O. H. M'ROBERTS, M. D.,

STANFORD, KY.

Office on Lancaster Street, opposite Court-House

Having removed to this place from Liberty, to practice his profession, calls the attention of the public to the fact that he will be ready at all hours day or night to answer calls in town or country. Thirty years of his life were spent in Stanford and he deems it unnecessary to speak of his ability as a physician and surgeon. A share of the patronage of the people of Stanford and vicinity is asked by him.

The Favorite

Medicine for Throat and Lung Difficulties has long been, and still is, Ayer's Cherry Pectoral. It cures Croup, Whooping Cough, Bronchitis, and Asthma; soothes irritation of the Larynx and Fauces; strengthens the Vocal Organs; always cures the Coughs; prevents Consumption, and, even in advanced stages of that disease, relieves Coughing and induces Sleep. There is no other preparation for diseases of the throat and lungs to be compared with this remedy.

"My wife had a distressing cough, with pains in the side and breast. We tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which has cured her. A neighbor, Mrs. Glenn, had the measles, and the cough was relieved by the use of Ayer's Cherry Pectoral. I have no hesitation in recommending this

Cough Medicine

to every one afflicted."—Robert Horton, Foreman, Headlight, Morrilton, Ark.

"I have been afflicted with asthma for forty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Two bottles were procured. I was immediately relieved and continued to improve until I was completely recovered."—Joel Bullard, Danville, Conn.

"Six months ago I had a severe hemorrhage of the lungs, brought on by an excessive cough which deprived me of sleep and rest. I tried various remedies, but obtained no relief until I began to take Ayer's Cherry Pectoral. A few bottles of this medicine cured me."—Mrs. E. Coburn, 19 Second St., Lowell, Mass.

"The children afflicted with colds, croup, sore throat, or croup, I do not know of any remedy which will give more speedy relief than Ayer's Cherry Pectoral. I have used it, also, in all cases of Whooping Cough."—Mrs. J. W. Washington Street, Lowell, Mass.

Ayer's Cherry Pectoral.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

For sale by all Druggists. Price 25c and \$1 per bottle.

M. F. Brinkley

Is a Candidate for Clerk of the Court of Appeals subject to the action of the democratic party. Election August, 1890.
